

Orchestra - Ref. ORC50

Powerful Intuitive and Ergonomic Remote Controller for Rental and Staging/
Multi-venues/Integration

Special tips

The Orchestra can be controlled by an external controller from CRESTRON®, AMX® or any other major control system.

Orchestra at a glance

- ▶ User-friendly and powerful Remote Controller
- ▶ Controls simultaneously up to 6 screens in single or multiple display configuration
- ▶ Can store up to 64 presets per screen selection
- ▶ Controls a large number of Analog Way's Seamless Switchers
- ▶ Equipped with a USB port, the complete configuration of the event can be saved for future use

To control the following Seamless Switchers

- | | |
|---------------------------|--------------------------------------|

Technical Specifications

▶ User Controls

- TFT touch screen, 7" (18 cm)
- Buttons for direct access to inputs
- Buttons for direct access to effects
- User preset buttons
- Take, Freeze, Main and Preview selection
- T-Bar for smooth manually controlled transitions
- Joystick for easy and fast set up of image or effect parameters

▶ Connectors

- RJ45 for TCP/IP Ethernet connection
- USB port
- Auxiliary VGA
- BNC for desk light

External Programming

All Presets can be prepared on the Orchestra and recalled by Control Systems. Templates can be selected and filled by chosen source. Simple and affordable, the **Orchestra** saves time and money by programming complicated presets which can be recalled by a third party controller and later changed without reprogramming the third-party controller.
